ANNOUNCEMENT OF INTENT TO PERFORM

ANNOUNCEMENT OF INTENT TO PERFORM FLOOD ELEVATION STUDY

The Federal Insurance Administration of the U.S. Department of Housing and Urban Development announced today that under authority of the National Flood Insurance Act of 1968, as amended, (P.L. 90-448) and the Flood Disaster Protection Act of 1973, (P.L. 93-234) it will fund a detailed study of the flood hazard areas in Appomattox County, Appomattox and Pamplin City.

The study will be performed for the Federal Insurance Administration by CH2M HILL, INC., of Reston, Virginia.

The purpose of this study is to examine and evaluate the flood hazard areas in the communities which are developed or which are likely to be developed and to determine flood elevations for those areas. Flood elevations will be used by the communities to carry out the flood plain management objectives of the National Flood Insurance Program. They will also be used as the basis for determining the appropriate flood insurance premium rates applicable for new buildings and their contents, as well as determining the rates to be used for the second layer of insurance on existing buildings and contents.

This anouncement is intended to notify all interested persons of the commencement of this study so that they may have an opportunity at a public meeting to bring any relevant facts and technical data concerning local flood hazards to the attention of the Chief Executive Officer of the community for forwarding to the appropriate representatives of the Federal Insurance Administration.

The meeting for Appomattox and Pamplin City will be held in the County Clerk's Office in Appomattox, Virginia, at 7:00 p.m. on 11 September 1975. 8-28-3t
